

LYRICS TO "WE THE PLURALS"

Sometimes you will see / a friend who disagrees
Don't sweat / don't fret / it's an opportunity

Sometimes you will hear / an insult in your ear
Don't sweat / don't fret / there is nothing you should fear

Flow like water / keep an open mind
Stretch your thoughts and don't get left behind
Welcome friendships / extend an open hand
Ask a question / if you don't understand

Sometimes you will find / a comment so unkind
That pierces deep inside, causing humans to divide
Show them that you care / make time so both can share / their
feelings / Take a turn to see what both can learn

We the Plurals can live in harmony
We the Plurals are more than you can see
We the Plurals, together we all stand
We the Plurals, walking hand-in-hand

Will you meet me / at the table / if you're able
Don't label me! / I'm so much more than the eye can see
And together / we'll uncover / so much about each other
You'll see! / At first, it may feel uneasy

We the Plurals can live in harmony
We the Plurals are more than you can see
We the Plurals, together we all stand
We the Plurals, walking hand-in-hand
